## End of Year Expectations

## Maths

## Year R

Please note that in line with the progress children make this list is subject to change and the objectives are not necessarily taught in the order listed below.

| Number |
| :--- |
| Children count reliably with numbers from one to 20, place them in order and say which number <br> is one more or one less than a given number. Using quantities and objects, they add and subtract <br> two single-digit numbers and count on or back to find the answer. They solve problems, including <br> doubling, halving and sharing. <br> Children at the expected level of development will: <br> - Have a deep understanding of number to 10, including the composition of each number <br> - $\quad$ Subitise (recognise quantities without counting) up to 5 <br> - Automatically recall (without reference to rhymes, counting or other aids) number bonds <br>  <br> up to 5 (including subtraction facts) and some number bonds to 10, including double facts |
| Children at the expected level of development will: |
| - Verbally count beyond 20, recognising the pattern of the counting system |
| - Compare quantities up to 10 in different contexts, recognising when one quantity is |
| greater than, less than or the same as the other quantity |
| - Explore and represent patterns within numbers up to 10, including evens and odds, |
| double facts and how quantities can be distributed equally |
